## SPECIAL NOTICES.

The Fever and Ague Season .-- When the leaves begin to change, remittent and inter attient fevers make their appearance. From the surface of the earth, bathed nightly in heavy dewa, from marshes and awamps surcharged with moisture, from the dying foliage of the woods, from festering pools and singdish streams, the sun of September evolves clouds of missmatle vapor perilous to health and life. The body deprived by the burning temperature of July and August of much of its vigor and elasticity, is not in a proper plight to resist malaria; and hence all diseases that are produced by a depraved condition of the atmosphere are particularly prevalent in the Fall.

There is no reason why the health of thousands of people should be thus sacrificed. A preparatory course of HOSTETTER'S STOMACH BITTERS is a certain protection against the epidemics and endemies which Autumn brings in its train. Let all dwelfers in unhealthy localities, liable to such visitations, give heed to the warning and advice conveyed in this advertisement, and they may the surface of the earth, bathed nightly in give heed to the warning and advice con-veyed in this advertisement, and they may bid defiance to the foul exhalations which are now rising, night and day, from the soil around them. No farmfouse in the land should be without this invaluable, exhila-rant and invigorant at any period of the year, but especially in the Fall. It is not safe to go forth into the obtil, misty atmosphere of a Saplamber morating or evening with the stemach unfortified by a tonic, and of all the stemach unfortified by a tonic, and of all the tonics which medical chemistry has yet sizes.

stemach unfortified by a tonic, and of all the unice which medical chemistry has yet given to the world, HOSTETTERS BITTERS are admitted to be the purest, the most whole-some, and the most benedicial.

Let all who desire to escape the billious attacks, bowel complaints and malarious fevers, take the BITTERS at least twice a day throughout the present accesson. It is as throughout the present season, it is as wholesome as it is infallible. Look to the trade-mark, "HOSTETTER'S STOMACH BITTERS," engraved on the label and embossed on the bottle, and their revenue stamp covering the cork, as counterfoits and initiations abound.
